

SALES BULLETIN

DATE: 07-30-10

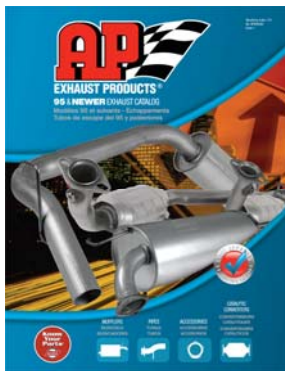

SUBJECT: ***NEW 1995 & Newer AP Exhaust 49 State Catalogs***

TO: All Field Sales

AP Exhaust announces the availability of the new 1995 & Newer AP Exhaust 49 State Catalogs. This new catalog includes many new and updated exhaust applications, presented in a new easier-to-read format (details on following page). The projected availability date of these catalogs is 08-02-10.

Please place all catalog orders directly with customer service using the form number listed below. The CARQUEST version has been shipped to each CQ dist. center.

**1995 & Newer AP Exhaust
49 State Catalog
#AP95N49S**

NOTE: This catalog DOES NOT supercede the current 1985 & Newer Catalog (#AP85N). Please make sure your customers are aware that they must retain catalog #AP85N to look up applications for year range 1985-1994. This catalog is NOT suitable for distribution within the State of California.

(OVER)

Page one of this new catalog announces to the user, details of the new easier-to-read format in English, French and Spanish.

HOW TO USE THIS CATALOG

Revised format:

The format of the exhaust application section of this catalog has been enhanced to simplify the look-up process. All specific vehicle application diagrams are listed in order by make, model, and then year, sequenced first by numbers then by letter.

To find your exhaust application quickly, follow these easy steps:

1. Locate the vehicle make and model in the Table of Contents section and proceed to the page number listed.
2. Applications are listed in order by newest to oldest model years. The first application listed will contain the newest year of coverage available, then going from the smallest to the largest model engine.
3. Appropriate footnote explanations will appear at the bottom of each page.
4. When optional parts are available, the information will appear at the bottom of each exhaust diagram image.

comment utiliser ce catalogue

Nouveau format :

La section d'applications d'échappement de ce catalogue bénéficie d'un format amélioré, visant à simplifier le processus de recherche. Tous les schémas d'applications spécifiques aux véhicules sont listés par marque, par modèle et par année, avec un classement utilisant d'abord les chiffres puis les lettres.

Pour trouver rapidement votre application d'échappement, exécutez la procédure simple ci-dessous :

1. Dans la section Table of Contents (Table des matières), repérez la marque et le modèle du véhicule, puis reportez-vous à la page indiquée.
2. Les applications sont énumérées selon un ordre allant des modèles les plus récents aux plus anciens. La première application listée correspond à l'année la plus récente disponible et présente les détails en allant du plus petit moteur au plus gros.
3. Des notes supplémentaires apparaissent au besoin dans le bas de chaque page.
4. Si des pièces optionnelles sont disponibles, les informations correspondantes apparaissent dans le bas de chaque schéma d'échappement.

cómo utilizar este catálogo

Formato revisado:

El formato de la sección de aplicaciones de escape de este catálogo se ha mejorado para simplificar el proceso de búsqueda. Todos los diagramas específicos de la aplicación para vehículos figuran en orden por marca, modelo y año, con una secuencia primero por número y luego por letra.

Para encontrar la aplicación de escape rápidamente, siga estos pasos simples:

1. Ubique la marca y el modelo del vehículo en la sección **Table of Contents** y continúe en el número de página indicado.
2. Las aplicaciones aparecen ordenadas por año de modelos, de los más nuevos a los más antiguos. La primera aplicación contiene el año de cobertura disponible más nuevo; luego va del modelo de motor más pequeño al más grande.
3. En la nota al pie que se encuentra en la parte inferior de cada página aparecerán las explicaciones correspondientes.
4. Si existen partes opcionales, la información aparecerá en la parte inferior de cada imagen del diagrama del escape.

- New A-Z format blends the passenger car and truck sections together and therefore eliminates the need to determine if the vehicle is a “car” or “truck”. Table of contents have been updated to reflect these changes.
- Applications are listed in order of Make, Model, Year (highest year listed first) and then engine size. The 4, 6, 8 and 10 cylinder applications are no longer grouped together as with previous catalog versions.
- Chevrolet/GMC Silverado/Sierra Pickups and Suburbans are now in separate sections.
- Global footnotes have been minimized to clean up the bottom of each page. Application specific footnotes only appear on the pages where applicable.
- New section, “Muffler Dimensions By Cross Section” has been added to the AP version to match the CARQUEST version.
- 71 new exhaust diagrams have been added, many more have been updated. For specific details of new parts that have been added, refer to file “US Summary Of Product Bulletins.xls” previously sent to you by Mike Lesesne.
- 20 catalogs per carton.

Regards,

Bob Sterling
