Steering Knuckles

Trunk Lid Pull Down Motors

New steering knuckles and trunk lid pull down motors have been added in line OES. Contact your local sales representative and learn about new additions to the warehouse in these and other product categories.

3M Aerosol Recall

3M has issued a recall on three aerosol products that have been reclassified from consumer products to industrial. **08088** GENERAL TRIM ADHESIVE, **08889** ROCKER AEROSOL, and 3M FoamFast 74 are now restricted to **Industrial Use Only**. Any products that are incorrectly labelled should be returned to the CANUSA Warehouse for proper WHMIS labeling. We will issue a credit to your account for materials returned. Please contact your local sales representative for more information and remember chemicals marked for industrial use must be stocked behind the counter.

www.canusa.com

Inventory 2008

The CANUSA Warehouse is scheduled to count inventory on November 8-9 and November 22-23. Therefore, we will not be accepting any annual returns during the month of November and the warehouse will be closed on both Saturday November 8th and 22nd. Also note the CANUSA Returns department will not be accepting any returns or cores during the week of November 3-10 in order to achieve an accurate count. Thank you for your cooperation.

New Staff

We would like to welcome Sean Molloy to the CANUSA Counter. Sean comes to us with 30 years of experience in the automotive aftermarket industry and is a foreign car specialist. Give Sean a call on the CANUSA foreign car help line 1.800.676.0167 or e-mail seanmolloy@canusa-cdc.com.

Diesel Portable Containers

Legislation has been passed to ensure all containers used to store diesel fuel are yellow in colour and appropriately marked. CANUSA/CDC has begun stocking yellow Scepter gas cans (20L), part number **07649**, to ensure diesel fuel is transported safely.

you just know when something is genuine.

The full line of Beck/Arnley is now stocked and posted into the CANUSA warehouse. To launch the genuine foreign nameplate brand we are bringing in Beck/Arnley clothing and wearable products. Contact your local sales representative for more information on how to earn your Beck/Arnley gear free.

ACDelco Training

CFC/HCFC/HFC Certification Course is scheduled for February 2009. This course is based on Environment Canada's "Code of Practice for Reducing CFC Emissions in Refrigeration & Air Conditioning Systems." Participants who attend this two module broadcast and successfully achieve a mark of 75% or higher will be eligible to receive certification in the form of an Ozone Depletion Prevention (ODP) card. We will be holding the CFC/HCFC/HFC certification training at our APC Training Centre in London. Training dates have been scheduled for February 18, 2009 (Module 1) and February 25, 2009 (Module 2) at noon or February 10, 2009 and February 25, 2009 at 5:00 PM. This course costs \$150.00 and registration can be completed through CANUSA/APC or direct with ACDelco. Contact Dipesh Maniar for more information 519.268.7070 or e-mail dipeshmaniar@canusa-cdc.com.
