[www.canus](http://www.canus.com)

We are now stocking **Raybestos** pads and shoes at all APC Corporate stores, the CDC warehouse in Mississauga, and the CANUSA warehouse in Dorchester. Please note this is **FRICITION ONLY**.

Norton Abrasives can now be ordered through the Dorchester warehouse.

We have added over 150 new parts to our Cardone selection. Contact your local Sales Representative for product updates on all lines.

New Faces

We would like to welcome **Cam Pettinger** to the CANUSA sales team. Cam comes to us as an ACDelco Specialist working at all levels of the company with our CANUSA, CDC, and APC customers. He will also be actively involved supporting the TSS Program and introducing ACDelco Bulk Oil and Fluids. Cam can be reached by e-mail campettinger@autopartscentres.com or at 519.282.0957.

“A service repair business rises or falls on the know-how and skills of its technicians, therefore continuous training is the best way to keep up to date with the rapidly changing vehicle technology.” CANUSA and it’s affiliates believe the power of knowledge will give our customers a competitive edge over their competitors. We offer live webcasts of ACDelco On Demand Training at our APC Training Centre in London. This month we will be presenting **CFC Presentation** Modules 1 and 2. Module 1 will be presented on February 21st and Module 2 on February 28th. Both sessions will be at 5:00 PM at 41 Adelaide Street, London, ON. For more information or to register please contact Cheryl Burgess at the APC Head Office 519.473.5469. Please note pre-registration is required for these sessions.

PPG Paint

CANUSA/CDC will no longer be stocking **PPG** or **OMNI** paint lines. We will continue to provide PPG brands of **NEXA** and **Value Pro** lines.

The **Papco** line has been discontinued. All **Papco** numbers will be moved to **Dorman** line DAG. For more information contact your local Sales Representative.
