BECK/ARNLEY®

Reintroducing Genuine Foreign Nameplate Parts

CANUSA/CDC is launching our new *Import Car Strategy*. As part of this initiative we are renewing our commitment to the foreign car aftermarket with a relaunch of the "new-look" Beck/Arnley line.

With a commitment to bringing quality parts with the OE form, fit and function Beck/Arnley provides solutions in six modules:

- Engine Parts & Filtration
- Clutch & Driveline
- Brake & Chassis
- Cooling
- Engine Management
- Electrical

you just know when something is genuine.

Contact your local sales representative for more information or e-mail foreigncar@canusa-cdc.com.

ACDelco® Training Courses

ACDelco has released their Hands on Training Schedule for the Fall of 2008. There are 3 courses being offered:

- **Module Programming/Re-Programming and Power Sliding Door Diagnostics**
This course will be divided into two separate sections.
Section One - Electronic Module Programming
Section Two - Power Sliding Door Diagnosis and Repair
- **Supplimental Restraint Systems – Diagnosis and Repair**
This course covers operation and servicing of driver, passenger, multi-stage, side and upper level curtain airbag systems installed on today's vehicles. Technicians must understand these mandated systems both from the safety aspect for the customer and their own safety when servicing a vehicle.
- **Ford Diesel Engines**
The Ford Diesel Engine program is designed to provide technicians with information on the unique operating and servicing features of the various versions of 7.3L & 6.0L Power Stroke diesel engines used in Ford trucks between 1994 and 2007.

Contact your local Sales Representative for course dates and sign-up.

ACDelco® TSS Incentive Programs

ACDelco has just released an exciting new TSS Incentive program. Bonuses are available for every new TSS member signed as well as new or existing TSS members who subscribe to the MechanicNet Customer Retention System or TSS Shop Management Solution. Sales growth bonuses may also be available. Contact Cam Pettinger, our on-staff ACDelco Specialist, to learn how to get rewarded for your efforts. Cam's cell is 519-282-0957. Call Today!

Hybrid Vehicle Service Gloves

SAS Safety Corp introduces 2 gloves for the purpose of working on Hybrid vehicles and performing electrical service.

Rubber Insulating Gloves

- Protects Up to 1000 Volts AC / 1500 Volts DC
- 12" Length Rolled Cuff
- Natural Rubber
- Class 0 Type I
- Meets ASTM D 120 Standard

Abrasion Protection

Wear over Hybrid Service Gloves to protect the rubber insulating gloves from punctures or abrasion.

BOSCH Evolution Wiper Blades

Bosch has introduced a new wiper to their portfolio - the bracketless Evolution Wiper Blade. The Bosch Evolution™ features dual precision-tensioned steel springs that distribute more uniform pressure along the entire length of the blade for exceptional all-weather visibility.

Bosch has also launched their newest wiper POP Displays. There are 4 displays to choose from, 3 tiered rack displays and 1 rolling display. Contact your local sales representative to learn how to earn yours.

Racing Recap

The 2008 APC Late Models season came to a close on August 31st at the APC 300. This year's race was a great success. We would like to express our appreciation to the sponsors and organizers who helped at the event and everyone who came out to support "The Great Canadian Race Weekend" at Delaware Speedway. Congratulations to Jamie Ramsay and the CANUSA Motorsports team on a top ten season finish. We are looking forward to another successful season next year.

Thanks for your support
